Mational gree FINANCE AND COMMERCE.

Monetary. WASHINGTON, Saturday Evening, June 19. The events of the week in local financial sircles have been few and unimportant. The high-paying bonds and the gold-bearing issues continue to advance while the list is generally firm, but the "point" sinks in practical signifi credit. It carme, be denied that the guaranteed 265's have exhibited exceptional weakness during the week. This is regarded in New York and Washington as the result of the general influencer which have affected a large list of bonds and stocks in New York and the various markets of the country, and the best authorities transfer. rious markets of the country, and the best authorities treat it as a temporary depression. We have little to say other than to strengthen our early stand withe matter, and shall bring out some new points ack week that say be of some importance as affecting the value said activity of the bonds. Messry, Sterman & Jrant, No. 1425 F street, quote the fullowing buying and selling rates for troveraments, gold, &c.:

Santa ho ds q-iet to dull.

State ho ds q-iet to dull.

The volume of business in stocks continues very light. Lake Shere is yet the prominent feature for activity, which, under the circumstances of ready concessions by holders, is no credit to it. Sales to day of Lake Shore 103,000 shares. The market closed dulf and steady.

Sherman & Grant quote the following closing rates, telegraphed from the New York Stock Existange:

PINANCIAL NOTES: The New York bank statement to-day shows a ontinuation of the flow of money to New York. The increase of reverse was \$2,879,900, raising the ex-cess above legal requirements to \$22,017,525, Specie increased \$345,100 during the week, notwithstanding the constant outflow of coin.

The total specie shipmers from New York the week were \$6,25,779, 615 hich \$5,915,500 were gold coin. Imperts for the week, \$250,000 gold coin and \$19,007 silver.

The sub-Treasury balances at New York to-day were: Gold, \$46,000,351; currency, \$51,207,501. The Sub-Treasurer paid out \$6,000 on account of interest, and \$27,000 for bonds. Customs receipts, \$137,000.

The amount of Bullion gone into the Bank of England on balance to-day is £54,000. withstanding the constant outflow of coin.

Commercial.
The District markets show an improvement in tone upon last week; especially for staples.

While the movement of flour may yet be written "light" in the true sense of the word and in view of the high favor in which our District manufactures have been held, yet the improvement in the shipments upon last week has been so great and the "inquiry" has increased so much that four is universally quoted firmer by our merchants, and we may not rationally expect the concessions which many were led to believe wind be made during the summer.

Wheat has been almost steady and ruled firm, and the market price has been higher than in other grain markets, which is mainly owing to the light receipts and to the fact that quite a different quality, and undisposable and unobtainable sizewhere, goes to make upour manufactures.

Corn has advanced since the opening of the week and is now firm, but will probably near view of the high favor in which our District manble elsewhere, goes to make up our manufactures. Corn has advanced since the opening of the week and is now firm, but will probably not sell higher.

Our weekly record of the coal shinments from Georgetown shows a combination of the brisk trade which it was anticipated would supersede the dull season of the winter and early spring. The receipts this week have been 21,139 tons, and the simpments 18,649.
